Care Parent Network Presents

## 2020 Adult Transition Series

**For Persons with Disabilities and their Families**

Transition from school to adult life presents a big change for students with disabilities, and the parents / caregivers. The adult transition unknowns are often a big source of stress, fear, and confusion.

Care Parent Network is offering a series of four trainings on transition topics to help students and parents better understand the options that are available in order to plan for life after high school. Parents of individuals in middle school, high school, and beyond, are encouraged to attend, but all parents / caregivers are welcome. It's never too soon to plan for transition! Please plan to join us for all four or pick and choice presentations.

| Dates                 | Topics  |
|-----------------------|---|
| Sept. 8<br>10AM-12PM  | <b>CaABLE</b> –Learn about tax-advantage savings and investment programs for person with disabilities.  |
